PROFILE

Myat Pann Phyu Zin is a committed and promising individual who is currently an Assistant Researcher at the Myanmar Institute of Strategic and International Studies (MISIS). Throughout her time at MISIS, she has contributed to various projects, including the development of Memorandums of Understanding (MoUs) and Letters of Association and Cooperation (LOACs). Her recent research has examined political leveraging and control processes based on the geopolitical position of dams, and she is currently working on studies exploring foreign policy and its application in advancing national interests, as well as perspectives on the development of Global South cooperation. Guided by a strong sense of integrity and commitment to public service, she upholds values of intellectual curiosity, collaboration, and responsibility in her academic and professional pursuits. She believes in the importance of open dialogue and mutual understanding in promoting peaceful international cooperation.

During her academic years, she participated in the Training Program for Future LMC Diplomats, which enhanced her understanding of regional diplomacy and international cooperation. In addition to her academic pursuits, she actively volunteers at the Universities' Central Library. Her skills include research organization and analysis, policy evaluation, and strategic writing, alongside strong abilities in critical thinking and communication. She is experienced in preparing research materials, supporting policy-oriented studies, and contributing to institutional projects with accuracy and professionalism. Fluent in both English and Myanmar, she demonstrates excellent intercultural understanding, adaptability, and teamwork in diverse research and diplomatic environments.

She has successfully completed her Master's Qualifying Program. She holds a Bachelor's degree in International Relations from the University of Yangon.
